INSOL 2017

Member Associations Roundtable

Preceding INSOL 2017, a meeting for the Member Associations CEOs and/or secretariat members will take place on Saturday 18th March 2017, starting with a networking lunch at 1.00pm and followed by the technical meeting at 2.00-5.00pm.

The idea of the meeting is to share experiences as Executives running associations and see how we can learn from each other with regard to issues facing member associations, such as for example, attracting and maintaining membership; strategic planning and how to make an association profitable; technical leadership and relations with stakeholders.

The Main Organising Committee are currently working on developing the technical sessions. The programme will be made available in due course.

In addition, ARITA will be hosting a networking event on Sunday 19th March, further details TBA.

Invitations to attend the meeting have been sent to all INSOL Member Associations by email, and if you are planning to attend or would like more information please contact Jelena Wenlock, Membership Manager at jelena@insol.ision.co.uk.

INSOL 2017 Tenth World Quadrennial Congress 19th - 22nd March 2017 Sydney, Australia

We look forward to welcoming our members to Sydney in March 2017. The [registration brochure](#) and [online registration](#) are available on our website.

The technical programme is just being finalised so make sure you are in Sydney to join in the fun and the cutting edge technical programme.

Prior to the main Congress, the INSOL Academics Group will meet on Saturday, 18th March and Sunday, 19th March. Please contact Tina McGorman for further details at tina@insol.ision.co.uk.

The Twelfth Multinational Judicial Colloquium, held jointly with UNCITRAL and The World Bank, will take place on the same dates. This is a closed meeting for judges, regulators and judicial officials.

We are also holding an Offshore Ancillary Meeting on Sunday. Details of these meetings can be requested from Penny Robertson at pennyr@insol.ision.co.uk.

The Small Practice programme starts with a networking lunch on Sunday, 19th March followed by an afternoon technical programme. This will provide practitioners with the opportunity to meet early on at the Congress and discuss topics of particular interest to the Small Practice group. The Small Practice Group dinner will take place on Monday evening. Please contact Jelena Wenlock, Membership Manager, for more information at jelena@insol.ision.co.uk.

The Main Organising Committee (MOC) completed the site visit in October and the venue is superb. The International Convention Centre team are currently working on the final internal fittings and it will be completed well in time for the Congress. The MOC met with the Executive Chef Tony Panetta during the site visit and he explained how he sources the highest quality ingredients and his philosophy on the menus. We sampled some of the dishes we will be serving at the Congress and cannot do justice in writing to the quality, presentation and

taste. [Please click here](#) for a video from Tony about the truly amazing menus that we will enjoy. We highly recommend your attendance at the Welcome Reception, roving feast and the Gala Dinner.

On Monday, 20th March there will be a special lunch hosted by the President's wife, Kylie Robinson, and Joint Congress Chair's wife, Jude Billingham, for accompanying persons (AP) held at the Garfish Restaurant. This will give the APs the opportunity to meet up and enjoy the beautiful scenery on route to Manly and whilst at the restaurant overlooking the water.

We will also be hosting a meeting with ARITA on Saturday 18th March for Member Association Executives to share and exchange knowledge with regard to the issues facing our associations and we look forward to welcoming the Member Association Secretariat members. Please contact Jelena Wenlock, Membership Manager at jelena@insol.ision.co.uk for more information or to register your Association to attend this meeting.

The Congress will be attended by accountants, lawyers, turnaround experts, judges, regulators, academics, lenders and alternate capital providers from around the World, where our technical programme will support our members' role as leaders in international turnaround, insolvency and related credit issues.

INSOL INTERNATIONAL TASKFORCE 2021

The future of INSOL is vibrant and exciting. INSOL's Taskforce 2021 has finalised its year-long endeavor to develop a game-changing Strategic Plan for INSOL International. The strategic plan has been embraced by the INSOL Board and will be launched at the upcoming Sydney Congress.

The INSOL Executive are very proud of the quality of the Plan, the bold vision and purpose that it articulates and the bright future for INSOL that the Plan envisages. This plan is built from the insights and ideas drawn from across all INSOL stakeholders and it reflects the collective priorities of our members. INSOL PUBLICATIONS

Claim Priorities in Rescue Proceedings – A Global Compendium

INSOL International is very pleased to have published an electronic book titled "*Claim Priorities in Rescue Proceedings – A Global Compendium*", a copy of which was sent to all INSOL members in December 2016 and is also available for members to view/download online.

The compendium consists of priority and special issues relating to various classes of claims across 23 jurisdictions and is presented in a user friendly-chart format that shows the (i) types of claims (ii) description about these claims and (iii) comments from the contributors relating to these claims. The claim types would include secured; administrative; priority; unsecured; equity interests, etc. In addition, certain claim types with special rights or issues such as inter company claims, labour/employee claims; pension claims; governmental claims; etc. are also covered.

We envision the compendium as a basic reference and valuable tool for any practitioner involved in cross-border insolvency matters who wants an overview of how particular types of claims will be treated in foreign jurisdictions. With time, this publication will be expanded to include more countries and the country chapters will be updated as and when necessary.

INSOL International sincerely thanks David Eaton of Kirkland & Ellis LLP for leading this project and bringing it to a conclusion, and we greatly value his guidance and assistance throughout. We would also like to thank Richard Mizak of Patriarch Partners LLC, Fellow, INSOL International and Alexandra Schwarzman of Kirkland & Ellis LLP for their assistance.

Statement of Principles for a Global Approach to Multi-Creditor Workouts

As previously advised, the INSOL Lenders' Group has worked to review and update INSOL's seminal publication "Statement of Principles for a Global Approach to Multi-Creditor Workouts", first published in 2001. We are pleased to advise that endorsement of the Principles in their revised form has recently been received from both the World Bank and the Bank of England. The revised Statement of Principles will be launched in March 2017 at INSOL Sydney.

INSOL TECHNICAL PAPERS SERIES

The following technical papers were produced and mailed to all INSOL members in the Fourth Quarter 2016:

The Long (or Not So Long) Arm of Avoidance Claims: The Issue of Extraterritorial Application

By David Molton of Brown Rudnick LLP, Fellow, INSOL International and Jacob Beiswenger of O'Melveny & Meyers, USA (*Posted on 4th October 2016*).

In the context of cross-border insolvency proceedings, an office holder's avoidance powers are among the most important tools available to maximise creditor recoveries. Although one might expect the 'avoidance' remedies of a sophisticated insolvency regime to have clear and undisputed extraterritorial effect and application, this is far from the case. The application of avoidance powers in the cross-border context is fraught with choice-of-law complications.

This paper examines the situation in the US and UK and highlights recent case law in both countries regarding the extraterritorial application of avoidance powers, with often conflicting results.

The paper concludes that a global rule, akin to the one now being employed by the European Union, based upon applying the avoidance law of the jurisdiction where the debtor has its "centre of main interest" may avoid piecemeal application of a particular bankruptcy regime and minimise the fraudulent removal of otherwise avoidable transfers from the range of avoidance prosecution in any jurisdiction.

INSOL International sincerely thanks David Molton and Jacob Beiswenger for this detailed analysis and for writing this excellent technical paper.

Assignment of Non-Performing Loans (NPLs) – Main Challenges in Brazil

By Roberto Vianna do R. Barros and Jorge Barbieri Gallo of Campos Mello Advogados, Brazil (*Posted on 30th November 2016*)

The stock of NPLs in the portfolios of financial institutions throughout Brazil has grown exponentially in recent years due to the increased availability of credit and higher default rates caused by the current macroeconomic scenario. Brazilian financial institutions are increasingly seeking to assign these NPLs with the intention of clearing their balance sheets and this growing market for NPLs has attracted the attention of both international and local investors.

This paper provides a comprehensive analysis of the current market for NPLs in Brazil and the constraints imposed on it by the applicable regulations and legislative requirements for both assignments of and after-sale management of NPL portfolios. It makes comparison with two other international markets: firstly, the US, which is considered to be the most developed market for NPL transactions and secondly, Spain, a market with some similarities to Brazil.

INSOL International sincerely thanks Roberto Vianna do R. Barros and Jorge Barbieri Gallo for this detailed analysis and for writing this excellent technical paper.

SMALL PRACTICE TECHNICAL PAPERS SERIES

INSOL continues working on producing two sets of papers in this series, which is based on standard templates developed by the INSOL Technical Research Committee and the Small Practice Issues Committee.

One set of papers covers a "**Collection of Practical Issues Important to Small Practitioners**" and the other covers "**Consumer Debt Issues**". The papers are country studies and are from the regions of Africa, the Middle East and Europe, Asia Pacific Rim and the Americas.

In November, *A Collection of Practical Issues Important to Small Practitioners – Canada* was added to the series.

INSOL International sincerely thanks William A. Courage, BDO Canada Limited and Jane Dietrich, Fellow INSOL International, Cassels Brock & Blackwell LLP, Canada for providing INSOL members with this very informative paper.

INSOL EDUCATIONAL PROGRAMMES

INSOL International / World Bank Africa Roundtable (ART)

6-7 October 2016, Accra, Ghana

ART 2016 was our seventh full Africa Roundtable held jointly with the World Bank. The project has grown from strength to strength since the first meeting in 2010, and this year we had 90 delegates representing 17 African countries, as well as representation from OHADA.

Whilst ART started as a closed meeting by invitation only to government officials, judges, regulators and key policy makers, following the success of last year, we opened up the second day to practitioners and academics for a small fee, which facilitated wider discussion. Adam Harris, INSOL Vice-President was chair of the meeting and committee. The committee also consisted of representation from our partners in the project, the World Bank Group and representatives from key African jurisdictions including GARIA, our member association in Ghana.

This year's ART theme was "***The freedom to fail: Insolvency for micro, small and medium enterprises***", which explored the importance of addressing MSME insolvency, in a manner that still upholds creditor rights and promotes access to finance. Sessions included Designing an Insolvency regime for MSMEs; Access to Finance and Insolvency Reform; Cross-border Insolvency and the Role of the Insolvency Regulator.

The first day ended with the "Insolvency Skills Workshop", developed by DLA Piper together with Judge Elizabeth Stong, US Bankruptcy Court, in which the participants were given basic insolvency facts prior to the forum and divided into teams to work through the case from the perspectives of the various stakeholders. Each group included a judge who ruled on the case presented to him or her. As always this practical workshop was a highlight of the programme.

Yet again ART was a resounding success, as reflected in the feedback and comments from participants.

INSOL International would like to thank the following supporters of the Africa Roundtable:

Platinum Sponsors: Bowmans | DLA Piper (US) LLP | PwC

Gold Sponsors: Curtis Mallet-Prevost Colt & Mosle LLP | South Square

For further information about ART please contact Penny Robertson at penny@insol.ision.co.uk.

INSOL International BVI One Day Seminar 17 November 2016

This was our second seminar in BVI and the fourth in the offshore Caribbean region. The seminar was held in association with our member association RISA BVI.

The seminar was very well attended with 144 registered delegates, and only 7 no-shows. We had a maximum capacity of 140 delegates, and were virtually sold out soon after registrations opened, we could have easily attracted 200 delegates had there been a larger venue available.

RISA BVI, our local member association, hosted a networking sailing trip on Friday for all seminar delegates. This was very well attended and by all accounts a very successful day out.

INSOL International would like to thank the following members of the Main Organising Committee for their time and work developing the seminar program.

Main Organising Committee

Andrew Thorp, Harneys	Chair
Mark McDonald, Grant Thornton (BVI) Limited	Educational Co-Chair

Mark Forte, Conyers Dill & Pearman	Marketing Co-Chair
Ben Mays, Carey Olsen	Sponsorship Co-Chair
Russell Crumpler, KPMG (BVI) Limited	Sponsorship Co-Chair

The educational program consisted of six sessions of varying lengths and styles, including two breakout sessions. We had excellent speakers both local and overseas practitioners and all the sessions were extremely well received. Attendance was consistently high throughout the whole programme and delegate discussion was very lively. The session chairs and speakers put a lot of time into the formulation and rehearsal of these sessions.

The seminar was followed by a dinner for all delegates and registered accompanying persons. This was well attended by virtually all seminar delegates and was a great networking opportunity for delegates.

The main organising committee worked hard on obtaining sponsorship and the seminar was well supported by local firms. INSOL International would like to thank the following sponsors for their generous support of the seminar:

Gold Sponsors: Campbells | Grant Thornton | Kobre & Kim | RHSW | PwC

INSOL SECRETARIAT NEWS

As INSOL is continually expanding the range and depth of member services, it was agreed by the INSOL Board in August to add to INSOL Secretariat team to ensure that we continue to deliver exceptional service to our members. The current Executive Director position was reclassified to Chief Executive Officer (CEO) with a remit to champion the Taskforce 2021 ideas and take INSOL forward into the future. More on this when the Taskforce Report is published.

Consequently, INSOL sought to appoint a Chief Operating Officer (COO) to assume responsibility for the day to day operational administration of the association, reporting to the CEO and Executive Committee. We had over 20 applications, of which a short list was drawn and the interviews were carried out by the INSOL Executive in September, alongside their visit for the INSOL G36 meeting.

We are pleased to announce that the new COO Jason Baxter joined INSOL in January 2017. In addition, we have strengthened our technical resource with Dr. David Burdette joining the INSOL team.
